PocketBook Touch Lux 3

FW Version 5.9
Localization World Wide
Developed by Obreey Products

Implemented:

1. User-friendly setup wizard which starts during firmware update or factory reset.
2. Optimization of books reading in pdf format. Now opening and flipping is performed quicker in *pdf* files, which contain a lot of graphics.
3. *Browser* app enhancements.
4. Improved general Device performance.
5. Added support of *Dyslexic* font.

Fixed:

1. Incorrect notes display in books in *DjVu* format (in some cases).
2. Other minor changes.
